

## **Band Pass Filter**

AWBPF-16.25-16.55GA

Your RF & Microwave Components Source

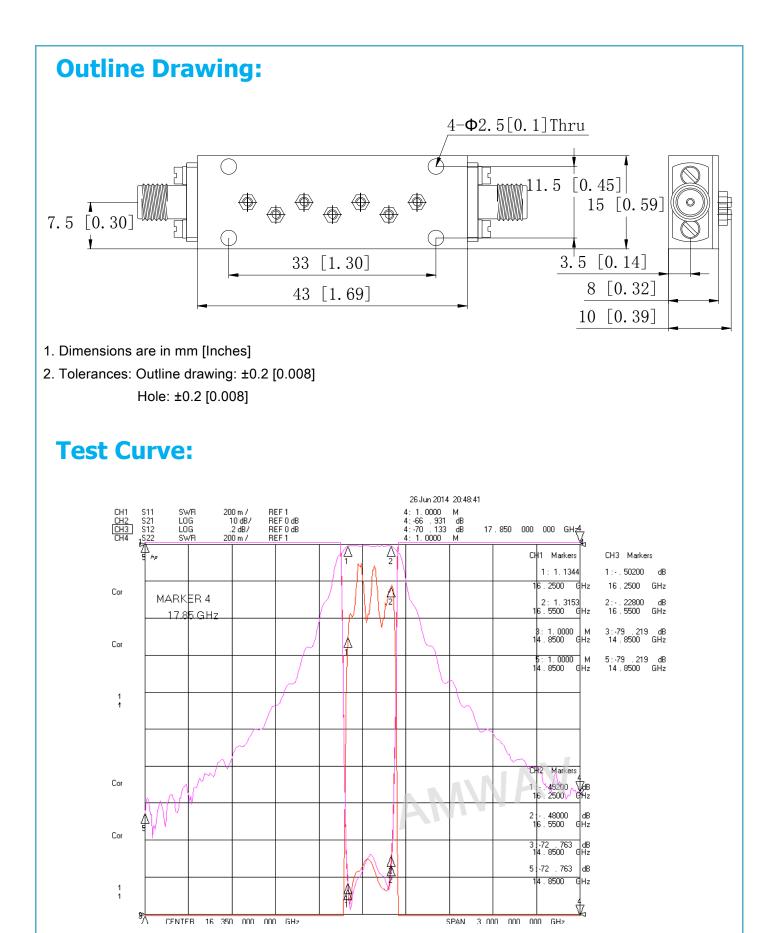

## **Features:**

- High Rejection
- Low Insertion Loss
- Excellent Temperature Stability
- Small Size
- Customization is available

## **Specifications**

| Parameters                            | Min.                         | Тур.                 | Max.            | Units |
|---------------------------------------|------------------------------|----------------------|-----------------|-------|
| Frequency range                       | 16.25                        |                      | 16.55           | GHz   |
| Insertion Loss                        |                              |                      | 0.8             | dB    |
| Ripple in Pass band                   |                              |                      | $\pm$ 0.3       |       |
| VSWR                                  |                              |                      | 1.4             |       |
| Rejection @ DC-14.85GHz<br>@ 17.85GHz | 60<br>60                     |                      |                 | dB    |
| Group Delay                           |                              |                      | 10              | ns    |
| Power Handling                        |                              |                      | 5               | W     |
| Operating Temperature                 | -35                          |                      | +65             |       |
| Impedance                             |                              | 50                   |                 | Ohms  |
| Input / Output Connector              | SMA-Female (Re               | emovable, $\Phi 0.5$ | mm Pins inside) |       |
| Finish                                | Black Paint or Silver Plated |                      |                 |       |

The information contained in this document is accurate to the best of our knowledge and representative of the part described herein. It may be necessary to make modifications to the part and/or the documentation of the part, in order to implement improvements. Amwav reserves the right to make such changes as required. Unless otherwise stated, all specifications are nominal.
